

## Helping To Prepare New Mexico's Next Generation of surveyors

The Surveying Department at New Mexico State University is dedicated to preparing the next generation of surveyors. The NMSU Student Chapter of ACSM / NMPS helps new students meet upper classmen, faculty, and local professionals. This year the student chapter hosted a precise leveling work shop giving our members the opportunity to learn what is involved in precise geodetic leveling. Students are encouraged to attend professional conferences, both national and state. Conference attendance provides many benefits including networking opportunities, introduction to new industry technology and equipment, professional growth, and educational advancement. The Chapter also participates in the annual national Student Surveying Competition, held in conjunction with the national ACSM / NSPS conference. This year's competition will involve completing traverse using a compose, Jacob's staff and Gunther's chain. The NMSU Student Chapter of ACSM / NMPS endeavors to fund travel expenses to conferences for all interested students. It is a continuing effort to obtain funding to meet this commitment.
